## Skills

Languages: Java, C/C++, JavaScript, Python, GDScript, TypeScript, HTML/CSS, MySQL Developer Tools: React, Git, JUCE, JFrame, VS Code, Eclipse, Godot, STM32CubeIDE, cmath

Soft Skills: Group work, Team leadership, Client relations, Communication

## **Projects**

Portfolio Website | React, JavaScript, TypeScript, HTML/CSS,

Jan 2025

- Strengthened previous JavaScript knowledge by building an SPA (Single Page Application) from the ground up.
- Researched and implemented various libraries to accelerate the project timeline
- Used CSS to style components and create a clean interface

Library Noise Monitor | Microcontroller, Git, Group Work, Design Demonstration

Sep 2024 – Nov 2024

- Researched the negative effects of excessive noise in libraries and developed an autonomous solution
- Configured an STM32 to monitor mic input within 5dB of precision and output warning LEDs at high noise levels
- Documented the design process with Git and gave a brief presentation on the device's design and functionality

FPV Drone Design/Build | Soldering, Multimeter, Project Management, Cost Efficiency

Mar 2021 – Dec 2023

- Soldered battery leads and other hardwired connections between PCBs
- Ensured the device met government weight/registration regulations, while legally exceeding speeds of 100km/h
- Implemented disarm and smoke-stopper mechanisms along with testing protocols to enhance safety

2D Video Game | Java, Eclipse, Raspberry Pi

Aug 2023 – Dec 2023

- Designed and developed a role-playing video game using 9318 lines of Java and the JFrame library with Eclipse
- Made all creative assets for the game including text file tile maps, music, sound effects and pixel art
- Created 2 dedicated hardware devices with an integrated Raspberry Pi board, battery and custom-designed casing

## **Extra-Curriculars**

#### International Level Athlete

2015 - Current

Canoe/Kayak

- Qualified for and competed in the ICF Junior Marathon World Championships in 2022 and 2023
- Balance intense training with high-achieving academics and a social life
- Compete as a varsity athlete for the University of Waterloo Nordic Ski Team

## Work Experience

#### Program Coordinator and Coach

May 2024 – August 2024

Mississauga Canoe Club

Mississauga, ON

- Scheduled practices, created training plans and organized boat transport for the Masters and Youth programs
- Coached kids aged 8-13 and adults aged 25-65 in training and competition in the sport of Sprint Canoe/Kayak
- Collaborated with co-workers and obtained the responsibility of locking up the canoe club at night

# Sales Associate (Full Time)

August 2023 – April 2024

St. Albert Source for Sports

St. Albert, AB

- Ran a cash register, handling financial transactions and customer inquiries
- Handled customer-service related tasks such as phone calls, custom orders and team orders
- Co-operated with other store locations to ship equipment to stores with more demand

### Education

#### University of Waterloo

Waterloo, ON

Bachelor of Applied Science in Computer Engineering

Sep. 2024 - April 2029

- President's Scholarship of Distinction
- Schulich Leader Entrepreneurial-Minded STEM Scholarship Nominee
